About Us

Montessori School of Bowling Green serves children 18 months through 9th grade. Our hands-on, authentic approach motivates children to be excited about learning, explore the world, and be well-prepared for the global society in which we live. We are a nurturing community that educates the whole child in a Montessori environment by providing learning experiences that support their intellectual development and personal responsibility and where they develop mutual respect and a passion for learning.

We strive to help children understand they are Capable, Accountable, Knowledgeable, and Independent. The use of the Montessori Method in our classrooms provides education that is focused on the child, helping them develop a sense of self, and support their intellectual development.
